## Tuesday/Thursday Breakfast Social Discussion

May 7, 2013

**Highlights** – SJB Group LLC, DBE Supportive Services staff, Mr. Kenyatta Sparks and Ms. Grace Chatman held a breakfast Meet and Greet session on May 7, 2013, with Mr. Larry Carter, owner of Turn Key Construction and his son Mr. Larry Carter, Jr. His goal is to utilize the assistance of DBE Supportive Services to help him become a more viable business, capable of competing for and performing on federally assisted highway projects. During the meeting, there was also discussion about bonding, bidding, estimating, marketing, partnering with other DBEs, and the SBE Program application process. Mr. Sparks also provided one-on-one training and assisted Mr. Carter in maneuvering through DOTD's website to obtain pertinent information about contracting opportunities with DOTD. Mr. Carter has not done any work with LADOTD or any other governmental agency; however, he expressed that he is ready and willing to take on the challenge.

We continue to extend an invitation to any DBE firm that is interested in attending one of our Breakfast Social Discussion Meetings. The meetings are normally held on Tuesdays and Thursdays from 7:30am to 8:30 am. Please call 769-3400 for more information or to schedule your attendance. We look forward to hearing from and working with you.

# OSHA's Safety and Health Standards

## OSHA standards: Protection on the Job

OSHA standards are rules that describe the methods that employers must use to protect their employees from hazards. There are OSHA standards for [Construction](#) work, [Agriculture](#), [Maritime](#) operations, and [General Industry](#), which are the standards that apply to most worksites. These standards limit the amount of hazardous chemicals workers can be exposed to, require the use of certain safe practices and equipment, and require employers to monitor hazards and keep records of workplace injuries and illnesses. Examples of OSHA standards include requirements to: provide fall protection, prevent trenching cave ins, prevent some infectious diseases, assure that workers safely enter confined spaces, prevent exposure to harmful substances like asbestos, put guards on machines, provide respirators or other safety equipment, and provide training for certain dangerous jobs.

Employers must also comply with the [General Duty Clause](#) of the OSH Act, which requires employers to keep their workplace free of serious recognized hazards. This clause is generally cited when no OSHA standard applies to the hazard.

## Employer Responsibilities

Employers have the responsibility to provide a safe workplace. **Employers MUST provide their employees with a workplace that does not have serious hazards and follow all relevant OSHA safety and health standards.** Employers must find and correct safety and health problems. OSHA further requires employers to try to eliminate or reduce hazards first by making changes in working conditions rather than just relying on masks, gloves, ear plugs or other types of personal protective equipment (PPE). Switching to safer chemicals, enclosing processes to trap harmful fumes, or using ventilation systems to clean the air are examples of effective ways to get rid of or minimize risks.

Employers **MUST** also:

Inform employees about hazards through training, labels, alarms, color-coded systems, [chemical information sheets](#) and other methods.

Keep accurate records of work-related [injuries and illnesses](#).

- ✦ Perform tests in the workplace, such as air sampling required by some OSHA standards.

- ✦ Provide hearing exams or other medical tests required by OSHA standards.

Post OSHA citations, injury and illness data, and the [OSHA poster](#) in the workplace where workers will see them.

Notify OSHA within 8 hours of a workplace incident in which there is a death or when three or more workers go to a hospital.

**Not discriminate or retaliate against a worker for using their rights under the law.**

**For more information about this and other OSHA safety articles, visit: [www.osha.gov](http://www.osha.gov)**

## UPCOMING WORKSHOPS....

### **LSBDC AT SOUTHERN UNIVERSITY: MAIN OFFICE**

## *What can SJB Group do for You?*

**SJB Group, LLC** can provide **free assistance** to certified LADOT DBE firms in the following areas:

**SJB Group can assist you by:** preparing company business cards, profile sheets, and providing information on recommended target areas for your marketing efforts.

**By acting as a liaison** between the DBE Contractor and Prime Contractor for project information, and in problems occurring on the jobsite.

**By informing** of upcoming LADOT lettings, and project information for other agencies throughout the state. SJB can assist you in locating bid tabulation information as well.

**By providing** assistance and guidance on material takeoffs, bid preparation and estimating, project scheduling, and planning for projects that DBE firms are bidding or plan to bid in the near future.

**By helping** with office computer operations to include trouble-shooting problems, Internet access and software installation, and basic to technical computer training.

**By assisting** in financial areas such as loan and bond package preparations, company financial statements, business plan preparation, and SBA 8(a) and Hub-Zone certification packages. (225) 769-3400.
